## THE HELLENISTIC AGE\*

by Jan Eric Blamberg, Ph.D.

The Hellenistic Age was a period, well delineated both historically and culturally, which extended from the death of Alexander the Great in 323 B.C. to the gradual Roman conquest of the Greek East ending almost three centuries later. It saw the spread of Greek civilization to the Near East and westward to Rome. During the period there developed a trend toward perceiving a world community sharing a common Greek language and culture. This universalism, when transmitted to and adapted by the Romans, formed an important underpinning for the wide-spread Roman Empire.

Politically the Hellenistic world was dominated by kingdoms ruled by Greek dynasties. The death of Alexander effectively ended the reality of a unified Greek empire, though his successors spent the next two hundred years dissipating their resources trying to recreate that which had become merely a dream. Alexander's generals and successors included such able men as Seleucus, Lysimachus, Ptolemy and Antigonos I. By 275 B.C., after constant intrigues and intermittent warfare, three principal kingdoms had emerged: Egypt, Macedon and Seleucid Syria. Ptolemy had made himself king of Egypt. Antigonos II Gonatas, son of Antigonos, had become king of Macedon and founder of a dynasty which ruled that land until the Roman conquest in 168 B.C. By far the largest empire, stretching from the coast of Asia Minor to India, fell to Seleucus. Vast in territory and wealth, multi-national in population, the Seleucid Empire was also ungovernable. Its far-flung provinces were never secure. In the east, Bactria quickly raised its own kings. In 263 B.C. Eumenes, the great ruler of Pergamum in Asia Minor, broke loose from Seleucid control, thereby establishing the fourth major power of the Hellenistic world. In the western half of the Mediterranean, Carthage retained its dominant position, though constantly challenged by Syracuse. In Italy, Tarentum provided the principal Greek opposition to the expansion of Roman control over the entire peninsula.

The Hellenistic Age was characterized by considerable political experimentation. The Greek city-state (Polis), which had reached its zenith in the fifth and fourth centuries B.C. was moribund by the third. On the Greek mainland the pattern of constantly warring, independent city-states was replaced by such Federations as the Achaean and Aetolian Leagues in which each member state surrendered some of its autonomy, principally in foreign affairs, to the central federal authority. The main political form in the Hellenistic period, however, was the great monarchy. With the exception of Macedon, the Hellenistic kings were not native rulers enjoying local support. They were Greek conquerors of non-Greek peoples. Their power depended on largely mercenary armies and the loyalty of their bureaucracies. Nevertheless, the ranks of these "Greek" administrators was not necessarily closed to the locals. There was a general recognition of Hellenism as a matter of education more than birth. With this in mind the Greek dynasts willingly supported the spread of Greek language and culture throughout their empires. A good Greek education became a prerequisite for political and social advancement, and one that was available to an ever widening circle of people. The libraries of Alexandria and Pergamum became world famous. Royal patronage made Alexandria a center of literature and scientific investigation and home of such men as the philologist Zenodotus, the poets Callimachus and Apollonius, the astronomer Aristarchus, Euclid the mathematician and the geographer Eratosthenes. Pergamum, the native town of Galen the physician, became an important center of medical studies. Nor did the East monopolize learning. Archimedes, the mathematician and inventor, was born in Syracuse and conducted most of his research in that city.

Hellenistic empires dwarfed the individual. Gone were the city-states of the fifth century when the citizen could be an effective participant in determining government

*\*Editor's note: In our Spring Fixed Price List we outlined a sample number of themes around which one might organize a collection of ancient coins. It is the aim of this and future lists to focus upon individual themes, providing background information and a selection of illustrative coins. For our first topic, we have chosen the Greek silver coinage of the Hellenistic Age. We hope our subscribers will enjoy these features and we encourage comments and suggestions for future lists.*

policies. It was the individual, devoid of any meaningful political life, that Hellenistic religions and philosophies sought to comfort. The three major philosophies of the period all addressed this theme. The Epicureans advised withdrawal from public affairs to free the body from pain and the mind from worry and fear. The Stoics believed that the individual attained happiness when the rational part of his soul disciplined his emotions. The Skeptics based their system on the denial of system. One could achieve peace of mind by recognizing the inability of man to understand. For those who desired personal immortality, a large variety of mystery cults offered an answer through cults of initiation which united the devotees with the cult god.

The emphasis on the individual was clearly evident in Hellenistic art. Greater realism in portraiture, a greater concentration on violent body movement, experiments with intricate interplays of lines and forms characterized the art. Portraits dominated the coins and the likenesses became more individual. Classical beauty gave way to the distinctive portraits of the Ptolemies, the bull necks and protruding jaws of the Attalids of Pergamum.

The Hellenistic age could boast considerable advances, especially in the sciences and medicine. It also saw the preservation and consolidation of Greek culture, and the spread of that culture around the Mediterranean. However, the inability of the Hellenistic world to form a political union, the incessant warfare which weakened all the monarchies, paved the way for Roman conquest. Despite the political failure, the Greek East passed on to its conquerors a fully developed civilization, far in advance of anything the Romans had yet encountered, which formed the basis of much of Roman art, literature, religion, science, and even the nature and image of the imperial office.

The coinage of the Hellenistic Age provides an intriguing reflection of the period. The Greek monarchs greatly encouraged the founding of new cities and a number of these cities struck coins. The principal protagonists, the dynasts and the usurpers, were all depicted with a realism hitherto unknown. City mints, such as Tyre, which fell under the rule of a succession of kingdoms, show the change of political boundaries on their coinage. The principal deities of Greek civilization also appear, in all their classic beauty, in high relief and on the broad planchets typical of the period. In a very real sense the coins were not only a medium of exchange, but also a means of portraying the fundamental aspects of the Greek civilization—the historical personalities, the personifications and traditions—which formed the basis of the Hellenistic world.

*For further information about the Hellenistic world, the excellent work by W. W. Tarn entitled **Hellenistic Civilization**, first published in 1927 and available in paperback editions, is highly recommended.*

#### TERMS OF SALE

- 1). All coins and medals offered in this List are guaranteed to be genuine and as described.
- 2). Items found unsatisfactory may be returned within 7 days of receipt for full refund, otherwise they will be considered sold.
- 3). Photographs of any coins not illustrated on this List can be provided for \$1.00 each. Should the customer decide to buy the coin, this fee will be credited toward the purchase price.
- 4). New York residents must add the required Local and State Sales Tax.
- 5). **For orders under \$100.00, please add \$3.00 for postage and handling. Orders of \$100.00 or over will be sent postpaid.**
- 6). Since most of the items in this list are one of a kind, second choices should be listed when possible.
- 7). **For all books, please add \$2.00 to cover Postage and Handling for the first title and \$1.00 for each additional title.** Special charges such as Air Mail will be billed upon request.

Note: **Special yearly subscriptions** for all Stack's and Coin Galleries publications dealing with **Ancient and Foreign Coins** are available for \$15.00 (First Class) or \$20.00 (abroad).

*The following pamphlets (paper covers) are reprints from The Numismatic Chronicle. All are by leading numismatic scholars. They are available individually for the prices indicated below, or as a group of 11 titles for* **27.50**

- Alfoldi, Andreas. **The Numbering of the Victories of the Emperor Gallienus and of the Loyalty of his Legions**. 1929. 62 pp., 10 plates. **4.50**
- Carson, R.A.G. **The Geneva Forgeries**. 1958. 12 pp., 2 plates. An important consideration of a series of relatively modern forgeries of Roman bronze issues of the late third and early fourth centuries A.D. **2.50**
- Grueber, H.A. **Coinage of Triumvirs, Antony, Lepidus, and Octavian**. 1911. 44 pp., 2 plates. **3.00**
- Hill, George F. **Ancient Methods of Coining**. 1922. 42 pp., 1 plate, 2 figs. **3.00**
- Kraay, Colin M. **The Coinage of Sybaris after 510 B.C.** 1958. 25 pp., 2 plates. **2.50**
- . **The Coinage of Vindex and Galba, A.D. 68, and the Continuity of the Augustan Principate**. 1949. 21 pp., 2 plates. **2.50**
- Mattingly, H. **The Coinage of the Civil Wars of 68-69 A.D.** 1914. 22 pp., 2 plates. **2.50**
- . **FEL. TEMP. REPARATIO**. 1933. 21 pp., 2 plates. **2.50**
- . **The Roman Serrati**. 1924. 22 pp., 2 plates. **2.50**
- Sydenham, E.A. **The Coinages of Augustus**. 1920. 40 pp., 2 plates. **3.00**
- Webb, Percy H. **The Pre-Reform Coinage of Diocletian**. 1929. 27 pp., 2 plates. **2.50**

- Phylactopoulos, George (ed.). **History of the Hellenic World: The Archaic Period (1100-479 B.C.)**. Pennsylvania State University, 1975. 555 pp., lavishly illus. in color. An excellently illustrated survey of the history, art and culture of Archaic Greece. **40.00**
- Plant, Richard. **Greek Coin Types and Their Identification**. London, 1979. 343 pp., line drawings. An excellent aid in the identification of Greek coins. **25.00**
- Price, Martin Jessop and Trel, Bluma L. **Coins and their Cities: Architecture on the Ancient Coins of Greece, Rome and Palestine**. London, 1977. 298 pp., 500 enlarged illustrations and 16 color plates. Useful bibliography and appendix. An excellent analysis of ancient coins which depict monuments, many of which would otherwise be lost without a trace. **30.00**
- Rackus, Alexander M. **Guthones (The Goths): Kinsmen of the Lithuanian People**. Chicago, 1929. 432 pp. Text in English and Lithuanian. Slightly soiled. **10.00**
- Ratto, R. **Collection Claudius Cote - Monnaies de Tarente**. Reprint: New York, 1975. Paper. 42 pp., 19 plates, 611 lots with prices realized. Reprint of the catalogue of a sale, held in 1929, consisting of an extremely important collection of Tarentine coins. **7.50**
- . **Collection Edward A. Sydenham, Aes Grave Italique monnaies Romaines consulaires**. Reprint: New York, 1974. Paper. 33 pp., 29 plates. An auction catalogue, compiled by R. Ratto in 1927, of Sydenham's collection of Roman Republican bronze. Most of the lots are illustrated. **8.00**
- Ravel, Oscar E. **Descriptive Catalogue of the Collection of Tarentine Coins formed by M.P. Vlasto**. Reprint: Chicago, 1977. 195 pp., 53 plates. **50.00**
- . **Les "Poulains" de Corinthe**. Two vols. bound in one. Reprint: Chicago, 1979. 444 pp., 78 plates. A key reference for the Staters of Corinth. **80.00**
- Rodewald, Cosmo. **Money in the Age of Tiberius**. Manchester University Press, 1976. 154 pp., 5 tables. An examination of the Roman monetary crisis of A.D. 33 and monetary policy of Tiberius. **16.00**
- Rutter, N.K. **Campanian Coinages, 475-350 B.C.** Edinburgh, 1979. 196 pp., 34 plates. A key reference. **55.00**
- Seaby, H.A. **Roman Silver Coins, Vol. 1: The Republic to Augustus**. Revised 3rd ed., 1978. An essential reference. **16.00**; Vol. II: **Tiberius to Commodus**. Revised 3rd ed., 1979. **30.00**; Vol. III: **Pertinax to Balbinus and Pupienus**. 1969. **20.00**
- Sear, David R. **Byzantine Coins and their Values**. London, 1974. 2260 coins listed with valuations. A most useful reference for this increasingly popular but confusing period. **17.50**

\*Indicates new additions to the List

## NUMISMATIC BOOKS
